

AP RACING SPINNAKER

The AP Spinnaker is designed as an all-purpose sail with flat sections to promote close reaching and maximum shoulder projection at deeper sailing angles. Dolphin utilise the best fabrics in the world for durability and longevity.

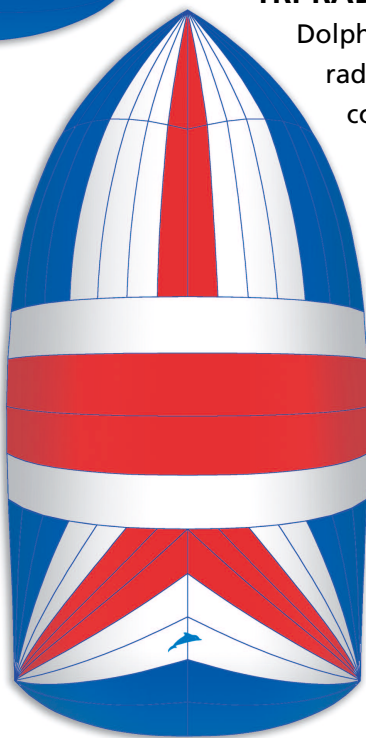

ROCKED RADIAL

Dolphin rocked radial Spinnakers feature panels rocked in vertical orientation to allow the stronger warp fibres to align with the high load path in the sail. This provides the ultimate in shape holding, minimizing distortion and maximizing performance. The lower luffs have heavier fabric to enhance the range of use and allow slightly closer reaching angles.

Dolphin utilise the best fabrics in the world for durability and longevity.

TRI-RADIAL

Dolphin tri-radial Spinnakers feature the classical radial corner with cross cut centre section construction.

STANDARD FEATURES

- Highly refined designs with hundreds of sails produced.
- Pre-glued seams with three step construction.
- Pre-glued step down patch construction.
- Stainless steel rings with webbing strainers.
- Sail numbers.
- Colour coded luff tapes.
- Drawstring sailbag.

EXTRA FEATURES

- Turtle or valise launch bag.
- Customized logo or graphics.
